MEMORANDUM FOR: JJH For Followup Action

John:

[redacted] have all looked at this file. The answer is the same from all - no suitable vacancy.

There is always room for one more good man, if indeed, you want to find a place for him. In the case of [redacted] I don't believe it's worth that kind of effort. Do you think OSP might be interested in him for an EOI-related job?

25X1 25X1 2. [redacted] has had little exposure to TKH material, almost no analysis. He is an excellent editor, has experience in production (structuring, formatting, editing, scheduling) of finished intelligence reports. He writes well, good oral expression and briefs well before a group. His recent experience in Project ASPEN has provided some insight into computer handling of information. He is a competent supervisor, although most of his experience has been with editors, production type personnel and clericals.				
3. As you know, positions at the GS-14 level for a new comer to the Center are limited. Center opportunities for [redacted] would be in editing, productio 25X1 processing, computer processing of information or in long-range planning and programming. Within IEG the only suitable GS-14 position would be as chief 25X1 of one of our four production branches. At present they are all staffed by competent chiefs i.e., [redacted]
